

IS SOMEONE ELSE'S CHILD LIVING WITH YOU?  
YOU NEED TO LET US KNOW

**You could be missing  
out on support.**

It is a legal requirement to notify Children's Services if you or someone you know is looking after a child or young person who has been privately fostered.

If someone else's child is living with you, or your child is living with someone else for more than 28 days, this could be a private fostering arrangement. By letting us know we can help keep children safe, provide advice and monitor the arrangement.
